

8 CONLAY SET TO REACH GREAT HEIGHTS

Backed by the design sensibilities of two large names in the interior design industry – Steve Leung and Kelly Hoppen both, Kuala Lumpur's brand new landmark 8 Conlay is set to assume its place as crown jewel of branded residences in Southeast Asia. Comprising three towers of 56 to 68 storeys in height spread out across nearly four acres of land on Jalan Conlay, 8 Conlay is a development by Malaysian property developers KSK Land. With one tower apiece for Leung and Hoppen alike, the third shining monument will serve as home to Malaysia's first and only five-star Kempinsky Hotel. Also housed within the property are a four-storey lifestyle retail podium, which will serve to provide residents and hotel guests access to a luxurious lifestyle experience that integrates hospitality, experiential retail, and top-notch aesthetics.
